REPORT.

TO THE RIGHT HONOURABLE

JOHN SINCLAIR, M.P.,

His Majesty's Secretary for Scotland.

GENERAL REGISTRY OFFICE OF BIRTHS, &c.,
EDINBURGH, *7th March*, 1906.

SIR,

I HAVE now the honour to submit to you, in accordance with the requirements of the Scottish Registration Act (17 & 18 Vict. cap. 80), a General Abstract of the Births, Deaths, and Marriages registered in Scotland during the year 1905, drawn up in the usual form, with a view to its being laid before Parliament.

I have likewise the honour to submit to you, in accordance with Section 19 of the Vaccination Act (26 & 27 Vict. cap. 108), the Forty-first Annual Report on Vaccination, which includes all the usual details relative to children whose Births were registered in Scotland during the year 1904.

I have the honour to be,

SIR,

Your most obedient Servant,

STAIR AGNEW,
Registrar-General.

REPORT TO THE REGISTRAR-GENERAL.

By James Craufurd Dunlop, M.D., F.R.C.P. Edin.

Sir,

I have the honour to submit the Fifty-first Annual Report regarding the Births, Deaths, and Marriages registered in Scotland. In it there are given facts regarding the births, deaths, and marriages registered in Scotland during the year ending 31st December 1905. Fuller information regarding those births, deaths, and marriages will be given in the Fifty-first Detailed Annual Report, which will be submitted at a later date.

I also submit the Forty-first Annual Report on Vaccination; in it is contained information regarding the administration of the Vaccination (Scotland) Act, 1863, more especially regarding vaccination of children born in Scotland during the year ending 31st December 1904.

I.—BIRTHS, DEATHS, and MARRIAGES in SCOTLAND.

POPULATION.

The population in Scotland at the middle of the year 1905 is estimated to be 4,676,603, of whom 2,280,085 are males, and 2,396,518 are females. The corresponding figures for the year 1904 were 4,627,656, 2,254,607, and 2,373,049. The increase of the estimate, namely 48,947, of which 25,478 is an increase of the male population and 23,469 an increase of the female population, is based on the annual rate of increase observed during the last intercensal period. The excess of births over deaths during the year was 56,855. The difference between that figure and the estimated increase of population, 48,947, may be taken as approximately representing the effect of immigration and emigration.

Of the total population, 2,094,916, or 44·8 per cent., live in the Principal Town Districts; 606,613, or 13·0 per cent., in the Large Town Districts; 940,265, or 20·1 per cent., in the Small Town Districts; 920,884, or 19·7 per cent., in the Mainland-Rural Districts; and 113,925, or 2·4 per cent., in the Insular-Rural Districts. The estimated population of the Principal Town Districts for this year is 33,620 more than it was for 1904; that of the Large Town Districts 5048 more; that of the Small Town Districts 9672 more; and that of the Mainland-Rural Districts 1247 more; while the estimate of the population in the Insular-Rural Districts is 640 less for this year than for the previous year. The estimated population of these groups of registration districts has been adjusted to allow for some rearrangement of registration districts, a portion of Ayrshire having been removed from the urban groups to the mainland-rural group.

BIRTHS.

The number of births registered in Scotland during the year 1905 was 131,381. This is 1189 fewer than the number of births registered in the previous year, is less than the number registered in any one of the previous

five years, and is 1010 less than the mean of the number of births registered annually during the last five years. The births registered in the Principal Town Districts numbered 60,498, in the Large Town Districts 18,454, in the Small Town Districts 27,157, in the Mainland-Rural Districts 22,909, and in the Insular-Rural Districts 2363. Compared to the returns of the previous year the births in the Principal Town Districts are 300, or 0·49 per cent., fewer; in the Large Town Districts 160, or 0·86

TABLE I.—Population estimated to the middle of each year, with the Number of Births, Deaths, and Marriages registered in Scotland during each of the Years 1855 to 1905, and their Proportion to the Population; also the Excess of Births over Deaths, the Number of Illegitimate Births, and their Proportion to the Total Births.

tion districts, but the declines are relatively greatest in the Mainland and Insular-Rural Districts.

The birth-rate for the year amounts to 28·093 per thousand of the estimated population. This is the smallest birth-rate yet recorded for Scotland for any year since the commencement of these reports; it is 0·554 less than that for 1904, which was the previous smallest on record. From 1857 to 1879 the birth-rate for Scotland was more than 34 per thousand; from 1880 to 1893 it ranged between 30 and 34; since 1893 it has only three times been more than 30, it has seven times been between 29 and 30, and only twice, this year and last year, been below 29.

The birth-rate for the year in the groups of registration districts ranged from 30·4 in the Large Town Districts to 20·7 in the Insular-Rural Districts. In the Principal Town Districts it was 28·9; in the Small Town Districts 28·9; and in the Mainland-Rural Districts 24·9. In each of these groups of registration districts it is less than in the previous year; in the Principal Town Districts it is 0·6 less, in the Large Town Districts 0·5 less, in the Small Town Districts 0·5 less, in the Mainland-Rural Districts 0·6 less, and in the Insular-Rural Districts 0·4 less. Thus, not only has the

actual number of children born in each group of registration districts been abnormally low this year, but the birth-rates in each of the groups has also been low.

Of the 131,381 births registered in Scotland during the year, 2385 were registered in the Northern Division of counties; 3453 in the North-Western; 12,931 in the North-Eastern; 17,331 in the East-Midland; 10,213 in the West-Midland; 62,601 in the South-Western; 18,004 in the South-Eastern; and 4463 in the Southern. In the Northern and in the Southern Division the number of births is more than in the previous year, in all the other divisions it is less. The birth-rate in the divisions of the counties ranged from 31·3 in the South-Western, to 21·4 in the North-Western. In the West-Midland it was 27·5; in the North-Eastern, 27·4; in the South-Eastern, 26·1; in the East-Midland, 25·5; in the Southern, 23·6; and in the Northern, 21·7. In the Northern Division and in the Southern Division the birth-rate is somewhat higher than in the previous year; in all the remaining divisions it is less than in that year.

Of the 131,381 living children born during the year, 8684, or 6·6 per cent., were illegitimate. This number is 118 more than that registered during the previous year, and 389 more than in 1903. From 1866 to 1903 the number of illegitimate births annually registered showed a steady decline year by year, falling from 11,673 in 1866 to 8295 in 1903, but since that minimum was reached the annual number has increased, being 8566 in 1904 and 8684 in 1905. The percentage of births registered as illegitimate is also higher this year than what it has been for several years past, it is 0·15 more than in 1904, 0·40 more than in 1903, 0·33 more than in 1902, 0·29 more than in 1901, 0·12 more than in 1900, and also 0·12 more than in 1899. The proportion of births to be illegitimate was a steadily diminishing quantity from 1866 to 1903, but since then has been increasing; in 1903 it was 6·21 per cent., in 1904 6·46 per cent., and is now 6·61 per cent. In the groups of registration districts this illegitimacy rate ranged from 8·8 in the Mainland-Rural Districts to 4·7 in the Insular-Rural Districts. In the Principal Town Districts it was 6·5; in the Small Town Districts 6·0; and in the Large Town Districts 5·4.

The relative frequency of illegitimate births in the counties during the year ranged from 13·3 per cent. of the total births in Banff, 12·8 per cent. in Wigtown, 11·7 in Aberdeen, and 11·6 in Kirkcudbright, to 3·7 per cent. in Kinross, 3·8 per cent. in Dumbarton, 4·1 per cent. in Renfrew, and 4·4 in Stirling. In 8 counties, namely, Caithness, Nairn, Elgin, Banff, Aberdeen, Dumfries, Kirkcudbright, and Wigtown, this illegitimate rate was more than 10 per cent.; in 9 counties, namely, Orkney, Ross and Cromarty, Fife, Kinross, Clackmannan, Stirling, Dumbarton, Renfrew, and Linlithgow, it was less than 5 per cent.; while in the remaining 16 counties it was between 5 and 10 per cent. In the previous year in 10 counties this rate was over 10 per cent., in 14 between 5 and 10 per cent., and in 9 it was less than 5 per cent. In 17 counties the illegitimate rate this year is higher than what it was last year, in 15 counties it is less, in 1 county it is the same as last year. The largest increases are found to be in Banff, Haddington, and Kirkcudbright.

Of the 131,381 births registered during the year, 66,763 were male children, and 64,618 female children. The proportion of living male children born during the year to female children was 103·3 males to 100 females. In 1904 the proportion was 104·7 males to 100 females.

The average number of births registered daily during the year was

360. This average was greatest in May, 406, and least in November, 328. In June it was 392; in July, 374; in March, 373; in April, 371; in August, 357; in January, 347; in September, 347; in February, 346; in October, 345; and in December, 333.

DEATHS.

The number of deaths registered in Scotland during the year 1905 was 74,526, a number which is 3435 less than that of the previous year, and less than the numbered registered in any year since 1896. Of these deaths, 34,984 were registered in the Principal Town Districts; 9879 in the Large Town Districts; 14,060 in the Small Town Districts; 13,814 in the Midland-Rural Districts; and 1789 in the Insular-Rural Districts. Compared to the previous year's returns the deaths in the Principal Town Districts are 2048 fewer; those in the Large Town Districts 519 fewer; those in the Small Town Districts 481 fewer; those in the Mainland-Rural Districts 444 fewer; but those in the Insular-Rural Districts are 57 more.

The death-rate for the year per thousand of the estimated population is 15·936. This is the smallest death-rate recorded for any year since this office was established. The previous lowest death-rate was in 1903, when it was 16·597, but the death-rate for this year is 0·661 less than that. The

		Kincardine . .	8·6	Ayr . . .	6·0	Wigtown . .	12·8

death-rate for this year is 0·911 less than that for the previous year, and 1·834 less than the mean of the death-rates of the last ten years. The death-rate for the year in the Principal Town Districts was 16·7; in the Large Town Districts 16·3; in the Small Town Districts 15·0; in the Mainland-Rural Districts 15·0; and in the Insular-Rural Districts 15·7. Compared to the returns of the previous year this rate in the Principal Town Districts is 1·3 less; in the Large Town Districts 1·0 less; in the Small Town Districts 0·6 less; in the Mainland-Rural Districts 0·5 less; but in the Insular-Rural Districts 0·6 more. It is thus evident that the decline of the national death-rate is due to a decline of the death-rate in all the mainland groups of registration districts, and that the decline is greatest in the Principal and Large Town Districts.

In the divisions of the counties the death-rate for the year ranged from 16·6 in the South-Western, to 15·0 in the West-Midland. In the Northern it was 16·5; in the North-Western 16·1; in the East-Midland 15·7; in the Southern 15·7; in the South-Eastern 15·4; and in the North-Eastern 15·1. In the Northern Division the death-rate was higher this year than what it was in 1904, in all the other divisions it was lower than in that year, the largest diminutions being in the Southern, where the rate is 1·4 less than in the previous year, and in the South-Western, where it is 1·2 less than in that year.

Of the 74,526 deaths registered during the year, 37,215 were of males, and 37,311 of females, the proportion of male deaths to female deaths being as 99·7 to 100. The death-rate per thousand of the estimated male population was 16·3, and of the female population 15·6. Compared to last year's returns the deaths of males are 1653 fewer, of females 1782 fewer, and the death-rate of the male population 0·9 less, and of the female population also 0·9 less.

The death-rate for the first quarter of the year was 18·1, for the second quarter 16·1, for the third quarter 13·9, and for the fourth quarter 15·7. The death-rate for the first quarter was, as usual, the highest, and that for the third quarter the lowest. The death-rate for the first quarter is lower than that of all previous first quarters, that of 1896 excepted, the death-rates for the second, third, and fourth quarters are each the lowest recorded. The death-rate for the first quarter is 2·4 less than the mean of the death-rates for the first quarter of the last ten years; that of the second quarter 1·8 less than the corresponding mean; that of the third quarter 1·8 less; and that of the fourth quarter 1·4 less.

The daily average number of deaths during the year was 204. The daily average was highest in January, 242, and lowest in September, 172. In February it was 230; in March, 222; in May, 216; in November, 212; in April, 209; in December, 202; in June, 193; in October, 190; in July, 182; and in August, 181.

MARRIAGES.

The number of marriages registered during the year was 31,243, a number which is 1010 fewer than in 1904, and smaller than that of any year since 1897. It is 275 less than the annual mean of the number registered during the last ten years. Of these marriages 16,611 were registered in the Principal Town Districts; 4101 in the Large Town Districts; 5827 in the Small Town Districts; 4354 in the Mainland-Rural

Districts; and 350 in the Insular-Rural Districts. The number registered in the Principal Town Districts was 299 fewer than in the previous year; the number in the Large Town Districts, 166 fewer; in the Small Town Districts, 244 fewer; in the Mainland-Rural Districts, 249 fewer; and in the Insular-Rural Districts, 52 fewer than in that year.

The marriage-rate per thousand of the estimated population for the year was 6·681; this rate is 0·289 less than that for 1904, less than that for any year since 1894, and 0·457 less than the mean of the rates for the last ten years. The marriage-rate in the groups of registration districts ranged from 7·9 in the Principal Town Districts, to 3·1 in the Insular-Rural Districts. In the Large Town Districts it was 6·8; in the Small Town Districts, 6·2; and in the Mainland-Rural Districts, 4·7. In the Insular-Rural Districts the rate is 0·4 less than what it was in 1904, in each of the other groups it is 0·3 less than in that year. In the divisions of the counties the marriage-rate ranged from 7·2 in the South-Western and South-Eastern, to 4·4 in the Northern. In the East-Midland it was 6·5; in the North-Eastern, 6·3; in the Southern, 6·1; in the West-Midland, 5·5; and in the North-Western, 4·5. In the North-Western Division this rate is slightly more than in the previous year, in each of the other divisions it is less than in that year.

The average number of marriages registered daily throughout the year was 86. The daily average in a month ranged from 150 in June, to 38 in May. In July the daily average of marriages was 131; in December, 129; in January, 114; in April, 82; in September, 72; in October, 69; in November, 64; in August, 63; in February, 61; and in March, 52.

II.—BIRTHS, DEATHS, AND MARRIAGES IN EIGHT OF THE PRINCIPAL TOWNS OF SCOTLAND.

The following remarks refer to the births, deaths, and marriages in eight of the Principal Towns, viz.:—Glasgow, Edinburgh, Dundee, Aberdeen, Paisley, Leith, Greenock, and Perth. The information on which the statements are founded is compiled from returns furnished weekly by the registrars of these towns. Corresponding information regarding the remaining registration districts of Scotland is not yet available, but when procured will be incorporated in the Detailed Report, which deals with the births, deaths, and marriages of the year. As fully 37 per cent. of the population of Scotland live in these eight towns, it may be assumed that the conditions observed in them fairly well indicate those in Scotland.

BIRTHS IN THESE EIGHT TOWNS.

Births registered in these eight towns during the year numbered 49,313, and as the estimated population of the towns is 1,749,917, the annual birth-rate per thousand is 28·2. The number of births is 335 less than that registered in the previous year, and the birth-rate is 0·6 less than in that year. The birth-rate is the lowest yet recorded for these towns, and it is 2·3 less than the mean of the rates for the previous ten years. The birth-rate of these towns from 1856 to 1884 exceeded 35 per thousand, from 1885 to 1900 it ranged between 30 and 35, from 1901 to 1903 it was between 29 and 30, since 1904 it has been below 29.

The highest birth-rate for the year was in Greenock, 30·5, and the lowest in Edinburgh, 23·0. In Glasgow it was 30·0; in Leith, 29·7; in Aberdeen, 29·2; in Dundee, 28·0; in Paisley, 27·7; and in Perth, 24·0. In Glasgow the birth-rate is 1·0 less than in 1904; in Edinburgh it is 0·4 less; in Aberdeen, 0·6 less; and in Paisley, 1·4 less; while in Dundee it is 0·4 more, in Leith 0·3 more, in Greenock 0·4 more, and in Perth 0·1 more than in that year.

Of the 49,313 births registered in these eight towns, 3487, or 7·1 per cent., were illegitimate. These illegitimate births are 69 more than in the

TABLE VII.—Births, Deaths, and Marriages, and their Proportion to the Population, in Eight Principal Towns of Scotland, during each of the Years 1855–1905.

previous year, and the percentage of the total births in these towns to be illegitimate is 0·2 more than in that year. Like the illegitimacy rate for Scotland the illegitimacy rate of these eight towns has for many years been a decreasing quantity, but has for the last two years shown some increase. From 1861 to 1873 this rate was over 9 per cent., from 1874 to 1888 it was between 8 and 9 per cent., from 1889 to 1897 (1894 excepted) it was between 7 and 8, from 1898 to 1904 it was less than 7 per cent., while this year, for the first time since 1897, it is over 7 per cent. The lowest rates for these towns were recorded in 1894, 1899, 1901, 1902, and 1903, in all of those years the rate being 6·6 per cent. The illegitimate rate for the year was highest in Dundee, 9·0 per cent., and lowest in Paisley and Leith, in both of which towns it was 4·6. In Aberdeen it was 8·7; in Edinburgh, 7·6; in Glasgow, 6·9; in Perth, 6·3; and in Greenock, 4·9.

DEATHS IN EIGHT PRINCIPAL TOWNS.

The number of deaths registered in these eight towns was 29,967, a number which is 1802 fewer than in the previous year, smaller than in any year since 1896, and 2118 less than the annual mean number of births registered in them during the last ten years.

Of these towns Greenock had the highest death-rate for the year, 18·8, and Leith the lowest, 13·9. In Dundee the death-rate was 18·0; in Glasgow, 17·9; in Perth, 17·1; in Aberdeen, 16·2; in Edinburgh, 16·1; and in Paisley, 16·1. In Greenock the death-rate was 1·0 higher than in 1904, in the other towns it was less. In Glasgow it was 1·4 less, in Edinburgh, 0·5 less, in Dundee, 2·2 less, in Aberdeen, 1·6 less, in Paisley, 2·7 less, in Leith, 0·8 less, and in Perth, 1·0 less. In Glasgow the death-rate was 3·0 less than the mean of the death-rates for the last ten years; in Edinburgh it was 2·5 less than that mean; in Dundee, 2·4 less; in Aberdeen, 2·1 less; in Paisley, 3·4 less; in Leith, 3·5 less; in Greenock, 0·6 less; and in Perth, 1·9 less.

TABLE VIII.—Births, Deaths, and Marriages registered during 1905, and their Proportion to the Estimated Population, in each of the following Principal Towns of Scotland; Estimated Number of Unmarried Women between 15 and 45 years of age; and the Illegitimate Births, and their Proportion to the Total Births, and to the Number of Possible Mothers.

Towns.	Population estimated to the middle of 1905.	BIRTHS.		Unmarried Women and Widows between 15 and 45.	ILLEGIT. BIRTHS.			DEATHS.		MARRIAGES.	
		Number.	Rate per 1000 of the Pop.		Number.	Per cent. of Total Births.	Rate per 1000 of Possible Mothers.	Number.	Rate per 1000 of the Pop.	Number.	Rate per 1000 of the Pop.
Glasgow . .	809,986	24,316	30·0	116,285	1,682	6·9	14·5	14,460	17·9	6,968	8·6
Edinburgh . .	336,390	7,743	23·0	61,464	586	7·6	9·5	5,424	16·1	2,911	8·7
Dundee . . .	164,269	4,600	28·0	28,721	413	9·0	14·4	2,955	18·0	1,288	7·8
Aberdeen . .	167,537	4,896	29·2	25,164	428	8·7	17·0	2,707	16·2	1,381	8·2
Paisley . . .	85,604	2,371	27·7	13,560	110	4·6	8·1	1,378	16·1	570	6·7
Leith . . .	81,664	2,425	29·7	10,177	111	4·6	10·9	1,139	13·9	514	6·3
Greenock . .	70,253	2,142	30·5	9,142	105	4·9	11·5	1,320	18·8	522	7·4
Perth . . .	34,214	820	24·0	5,858	52	6·3	8·9	584	17·1	300	8·8

If the recorded death-rates of these towns are corrected,* that is, if allowance is made for the different age and sex distribution of their populations, it is found that the highest death-rates are in Glasgow and Greenock, in both of which towns it is 19·8, and the lowest in Leith, 14·8. In Dundee the corrected death-rate is 19·0; in Perth, 17·2; in Edinburgh, 16·9; in Paisley, 16·8; and in Aberdeen, 16·1.

Deaths of children of less than five years old numbered 10,479. The estimated number of children in these towns, of less than five years, is 201,809. The death-rate of children under five in these towns was thus 51·9 per thousand. This rate is 6·0 less than that in 1904. This rate was for the year highest in Glasgow, 57·7, and lowest in Leith, 35·1. In Greenock it was 57·4; in Dundee, 51·4; in Edinburgh, 46·6; in Perth, 46·3; in Paisley, 45·7; and in Aberdeen, 43·9. Compared to the corresponding rates for the previous year, those of Greenock and Perth are higher, that of Edinburgh is of the same amount, while those of the remaining towns are smaller. Deaths under five during the year constituted 35·0 per cent. of the total deaths; in the previous year they constituted 36·3 per

TABLE X.—Death-rate of Children under Five Years of Age in Eight of the Principal Towns of Scotland in 1905.

Towns.	Estimated Number of Living Children under 5 years in 1905.	Deaths under 5 years of age.		
		Number.	Rate per 1000 Children under five.	Percentage of Total Deaths.
Glasgow	96,711	5,585	57·7	38·6
Edinburgh	33,420	1,556	46·6	28·7
Dundee	18,409	946	51·4	32·0
Aberdeen	20,822	914	43·9	33·8
Paisley	10,282	470	45·7	34·1
Leith	10,141	356	35·1	31·3
Greenock	8,565	492	57·4	37·3
Perth	3,459	160	46·3	27·4

* For factors for correction see *Forty-ninth Detailed Annual Report of Registrar-General*, p. lix.

cent. The highest proportion of the total deaths found to be under five during the year was in Glasgow, 38·6, and the smallest in Perth, 27·4.

Deaths in these towns of children of less than one year old numbered 6375, and constituted 21·3 per cent. of the total deaths. That proportion was highest in Aberdeen, 25·2, and lowest in Perth, 15·9. In Glasgow it was 22·1; in Leith, 21·2; in Dundee, 20·7; in Paisley, 20·0; in Edinburgh, 18·9; and in Greenock, 18·9.

The infantile mortality per thousand births in these towns for the year was 129. This rate was highest in Aberdeen, 140, and lowest in Leith, 100. In Dundee it was 133; in Edinburgh, 133; in Glasgow, 131; in Paisley, 116; in Greenock, 116; and in Perth, 113. This rate, for the eight towns combined, is 14 less than the corresponding rate for the previous year; in Glasgow it is 15 less; in Dundee, 41 less; in Aberdeen, 11 less; in Paisley, 20 less; in Leith, 21 less; in Greenock, 7 less; in Perth, 13 less; but in Edinburgh 2 more than in that year.

To the principal epidemic diseases, namely smallpox, measles, scarlet fever, influenza, hooping-cough, diphtheria, and "fevers," 2670 deaths in these towns were ascribed. This is equivalent to an annual death-rate from these causes of 153 per 100,000 of the estimated population. This rate is 3 smaller than that of last year, but the actual number of deaths is 3 more than in that year. The death-rate from these causes was for the year highest in Greenock, 245, and lowest in Leith, 70. In Glasgow it was 188; in Perth, 177; in Paisley, 145; in Dundee, 131; in Edinburgh, 119; and in Aberdeen, 81. Compared to last year's return this rate was higher in Glasgow, Edinburgh, Greenock and Perth, and lower in Dundee, Aberdeen, Paisley and Leith. Of the diseases included in this group hooping-cough was, as is usual, the most frequent cause of death; of the total deaths in this group 1023, or 38 per cent., were due to that disease.

There was only one death from small-pox registered in these towns during the year; it was in Glasgow.

Deaths from measles numbered 891, the death-rate from it amounting to 51 per 100,000, a rate which is 11 higher than in 1904. This rate was highest in Greenock, 80, and lowest in Leith, 12. In Glasgow it was 70; in Perth, 56; in Dundee, 53; in Edinburgh, 31; in Paisley, 21; and in Aberdeen, 19.

TABLE XA.—Infantile mortality in Eight of the Principal Towns of Scotland during the Year 1905.

Towns.	Births in 1905.	Deaths under 1 year of age.		
		Number.	Rate per 1000 Births.	Percentage of Total Deaths.
Glasgow	24,316	3,195	131	22·1
Edinburgh	7,743	1,026	133	18·9
Dundee	4,600	611	133	20·7
Aberdeen	4,896	683	140	25·2
Paisley	2,371	276	116	20·0
Leith	2,425	242	100	21·2
Greenock	2,142	249	116	18·9
Perth	820	93	113	15·9

Scarlet fever was the cause of 102 deaths, the equivalent death-rate being 6 per 100,000, a rate which is 1 less than the corresponding rate last year. The death-rate from scarlet fever was highest in Greenock, 32, and lowest in Perth, 3. In Aberdeen it was 7; in Leith, 6; in Glasgow, 5; in Edinburgh, 5; in Dundee, 5; and in Paisley, 4.

Influenza was the cause of 234 deaths, the equivalent death-rate per 100,000 being 13. These deaths are 65 more than in the previous year, and the death rate 3 higher. The death-rate from this cause was highest in Perth, 23, and lowest in Greenock, 4. In Paisley it was 21; in Aberdeen, 19; in Edinburgh, 17; in Glasgow, 11; in Dundee, 11; and in Leith, 10.

Hooping-cough was the cause of 1023 deaths, a number which is 175 less than that recorded last year, and equivalent to a death-rate from that cause of 59 per 100,000. The death-rate from hooping-cough was highest in Glasgow, 79, and lowest in Aberdeen, 20. In Greenock it was 76; in Paisley, 74; in Perth, 71; in Edinburgh, 38; in Dundee, 38; and in Leith, 31.

Diphtheria was the cause of 251 deaths in these eight towns during the year. The death-rate from it was 14 per 100,000, a rate which is 2 higher than in the previous year. The death-rate from this cause was

highest in Edinburgh, 22, and lowest in Leith, 4. In Greenock it was 21; in Perth, 21; in Dundee, 16; in Glasgow, 14; in Paisley, 9; and in Aberdeen, 5.

Typhus fever was the ascribed cause of 33 deaths; of these 14 were in Glasgow, 1 in Edinburgh, 2 in Dundee, 14 in Aberdeen, and 1 each in Leith and Greenock. Deaths from this cause last year numbered 6. The death-rate from this cause in Aberdeen was 9 per 100,000, and in Glasgow, 2 per 100,000.

Enteric fever was the cause of 134 deaths, a number which is 44 fewer than than that of last year, and equivalent to a death-rate of 8 per 100,000. This death-rate was highest in Greenock, 30, and lowest in Aberdeen, 2. In Paisley it was 16; in Glasgow, 7; in Dundee, 7; in Edinburgh, 6; in Leith, 6; and in Perth, 3.

Diarrhœas and infective enteritis were the cause of 493 deaths, a number which is 177 less than in 1904, and equals a death-rate of 28 per 100,000. This death-rate was highest in Dundee, 38, and lowest in Perth, 9. In Leith it was 36; in Glasgow, 30; in Paisley, 30; in Aberdeen, 29; in Greenock, 27; and in Edinburgh, 19.

* Smallpox, Measles, Scarlet Fever, Influenza, Hooping-cough, Diphtheria, and "Fevers."

To tuberculous diseases 3958 deaths were ascribed; of them 2574 were from phthisis. These deaths from tuberculous diseases are 213 fewer than in 1904, and equivalent to an annual death-rate of 228 per 100,000. This rate was highest in Dundee, 259, and lowest in Aberdeen, 186. In Paisley the death-rate from these diseases was 248; in Greenock, 238; in Glasgow, 234; in Leith, 225; in Edinburgh, 213; and in Perth, 198.

Malignant diseases were the cause of 1625 deaths in these towns during the year; this number is 6 fewer than recorded last year, and is equivalent to a death-rate of 93 per 100,000. Of these 1625 deaths, 822 were ascribed to carcinoma, 110 to sarcoma, and 693 to cancers not otherwise defined. The death-rate from these causes for the year was highest in Edinburgh, 129, and lowest in Paisley, 59. In Dundee it was 120; in Perth, 103; in Aberdeen, 93; in Glasgow, 80; in Leith, 80; and in Greenock, 64.

Pneumonia was the cause of 3013 deaths, a number which is 99 fewer than in last year, and is equal to a death-rate of 173 per 100,000. This rate was highest in Glasgow, 212, and lowest in Perth, 115. In Greenock it was 202; in Dundee, 158; in Aberdeen, 143; in Leith, 133; in Edinburgh, 126; and in Paisley, 119.

Smallpox, Measles, Scarlet Fever, Influenza, Hooping-cough, Diphtheria, and "Fevers."

Bronchitis was the ascribed cause of death in 2162 cases, a number which is 404 less than last year, and equal to a mortality of 124 per 100,000. The death-rate from this cause was highest in Paisley, 145, and lowest in Edinburgh, 92. In Dundee it was 143; in Glasgow, 135; in Aberdeen, 131; in Perth, 115; in Greenock, 109; and in Leith, 93.

Deaths from causes which were ill-defined or not specified numbered 1869, this is 558 fewer than in the previous year. These deaths include 733 from atrophy and debility; 842 from old age; 24 from dropsy; 37 from tumour; 45 from abscess; 12 from hæmorrhage; 33 from sudden death, the cause of which was not ascertained; 2 from other ill-defined causes; and 141 where no cause was specified.

During the year in these towns the deaths of 102 persons aged 90 or more were recorded. Of these, 21 were males and 81 females. The oldest was a retired leather factor aged 101.

Deaths from violent causes numbered 1270; this is 58 more than in the previous year, and equivalent to a mortality of 73 per 100,000. This death-rate for the year was highest in Leith, 85, and lowest in Aberdeen, 44. In Glasgow it was 84; in Greenock, 80; in Perth, 80; in Edinburgh, 65; in Dundee, 64; and in Paisley, 59. These deaths include 182 from burning, 128 from drowning, 123 by suffocation, 50 from overlaying, 52 from falls, 48 from poisons and poisonous vapours, 40 from accidents with vehicles and horses, and 546 from other causes or unstated causes. These 1270 deaths include 11 registered as homicidal, 89 as suicidal, and 1 by execution.

MARRIAGES IN EIGHT PRINCIPAL TOWNS.

The number of marriages registered in these eight towns during the year was 14,454. These are 360 fewer than in the previous year, 193 fewer than the average number registered during the last ten years, and a smaller number than that registered in any one year since 1896. The marriage-rate per 1000 of the estimated population is 8·3, a rate which is 0·3 less than that for the previous year, 0·8 less than the mean of the rates for the last ten years, and a smaller rate than any since 1893. The marriage-rate for the year was highest in Perth, 8·8, and lowest in Leith, 6·3. In Edinburgh it was 8·7; in Glasgow, 8·6; in Aberdeen, 8·2; in Dundee, 7·8; in Greenock, 7·4; and in Paisley, 6·7. The marriage-rate in Glasgow is 0·4 less than in 1904; in Edinburgh of the same amount; in Dundee, 0·2 less; in Aberdeen, 1·0 less; in Paisley, 0·4 less; in Leith, 0·2 less; in Greenock, 0·2 more; and in Perth, 0·4 less.

III.—WEATHER AND ITS INFLUENCE ON MORTALITY.

The remarks made in this section regarding the weather of the year are based on notes made by Dr. Buchan of the Scottish Meteorological Society, and which were published in the Monthly and Quarterly Reports of the Registrar-General.

The year 1905 was characterised by a mean temperature somewhat above the average mean temperature of the last twenty years, and a rainfall less than the average of that period. The mean of the mean temperatures of the last twenty years is 46·2 degrees Fahrenheit, the mean temperature of this year is 46·7. The mean of the rainfalls of the last

twenty years is 38·22 inches, the rainfall of this year is 35·68. The mean temperature of the year is thus 0·5 degrees above the average of the last twenty years, and the rainfall 2·54 inches less than the average of that period.

Compared to the corresponding returns of the previous year the temperature of this year is 0·4 degrees more, and the rainfall 0·69 inch less.

These conditions, a slightly high mean temperature and a comparatively small rainfall, have been accompanied by an unusually low death-rate, in fact by the lowest death-rate yet recorded in these reports, and not only is the general death-rate for the country low, but so is the death-rate of each of the groups of registration districts, that of the small Insular-Rural group of districts excepted. The death-rate of the eight towns specially dealt with in this report is also a very low one. Compared to the returns of the previous year the death-rate of this year is 0·9 less; that of the Principal Town Districts, 1·3 less; that of the Large Town Districts, 1·0 less; that of the Small Town Districts, 0·6 less; that of the Mainland-Rural Districts, 0·5 less; while that of the Insular-Rural Districts is 0·6 more. The death-rate of the eight towns is 1·3 less than in the previous year.

A comparison of the number of deaths from selected diseases, and groups of diseases in the eight towns during the year, with the corresponding returns of the previous year, shows that deaths from the following are more—measles, influenza, diphtheria, typhus fever, and liver diseases; while those from the following are fewer, small-pox, scarlet fever, hooping-cough, enteric fever, diarrhœas, pneumonia, tuberculous diseases, phthisis, cancer, developmental diseases of children, inflammations of the brain, convulsions, apoplexies, bronchitis, Bright's disease, and old age. But most of these differences were slight, and there are no reasons for ascribing them to weather conditions.

The following are notes on the weather of each month. Some details of the total deaths and deaths from selected diseases are given in Tables XIII., XIV., XV., XVI., XVII., and XVIII.

TABLE XIII.—Monthly Mortality and Mean Temperature in Scotland during 1905 compared with the Mean of the Ten Years 1891–1900.

MONTHS.	YEAR 1905.			1891-1900.	
	Mean Temperature.	Actual Deaths.	Proportion to 12,000 per annum or 1000 per month.	Monthly Proportion of Deaths.	Mean Temperature.
January . .	39°·5	7,498	1,207	1,163	36°·8
February . .	39°·2	6,427	1,035	1,087	37°·4
March . . .	41°·9	6,895	1,110	1,155	39°·7
April . . .	42°·0	6,259	1,008	1,043	44°·7
May . . .	49°·6	6,699	1,079	1,005	48°·8
June . . .	56°·0	5,805	935	929	55°·2
July . . .	59°·1	5,645	909	892	57°·3
August . .	55°·5	5,601	902	898	57°·1
September . .	52°·2	5,166	832	854	53°·0
October . .	43°·7	5,903	950	907	45°·8
November . .	39°·8	6,355	1,023	982	42°·4
December . .	42°·1	6,273	1,010	1,085	38°·7
YEAR . .	46°·7	74,526	12,000	12,000	46°·4

January was characterised by a very high mean barometric pressure; a high mean temperature, with a slightly high mean daily range; an extremely low mean rainfall, but with the average number of rainy days; a large excess of strong winds from W.

TABLE XIV.—Meteorology of Scotland for 1905, deduced from Observations made at 60 Stations of the Meteorological Society of Scotland, the particulars for each of the Stations having been published in the Quarterly Reports of the Registrar-General; also the Number of Births, Deaths, and Marriages registered during each Month of the Year 1905.

* Including Pneumonia.

February was characterised by a high mean barometric pressure; a high mean temperature, with a somewhat high mean daily range; a low mean rainfall, but with one more than the average number of rainy days; a large excess of moderate winds from W., and a slight excess from N.W. and N.

March was characterised by an extremely low mean barometric pressure; a high mean temperature, with a mean daily range about the average; a very high mean rainfall, with a large number of rainy days; a large excess of moderate winds from between S.E. and W.

April was characterised by a rather low mean barometric pressure; a low mean temperature, with a low mean daily range; a slightly high mean rainfall, with a large number of rainy days; an excess of moderate winds from N.W. and N.

May was characterised by an extremely high mean barometric pressure; a high mean temperature, with a rather high mean daily range; a low mean rainfall, with two less than the average number of rainy days; a slight excess of moderate winds from S.W., and from N.W.

June was characterised by a rather high mean barometric pressure; a high mean temperature, with a high mean daily range; a very low mean rainfall, with a remarkably small number of rainy days; a large excess of moderate winds from an easterly quarter.

July was characterised by a rather high mean barometric pressure; a very high mean temperature, with a very high mean daily range; a very low mean rainfall, with the average number of days with rain; a large excess of moderate westerly winds.

August was characterised by a slightly low mean barometric pressure; a slightly low mean temperature, with an average daily range: a rainfall

slightly above the normal, with two more days with rain than the average; a slight excess of moderate winds from S.E. and N.W.

September was characterised by a slightly high mean barometric pressure; a fractionally low mean temperature, with an average daily range; a very low mean rainfall, with the average number of days with rain; a slight excess of winds of average force from N.E.

October was characterised by an extremely high mean barometric pressure; a very low mean temperature, with a low mean daily range; a low mean rainfall, with the average number of days with rain; a very large excess of moderate winds from a N.W. quarter.

November was characterised by a remarkably low mean barometric pressure; a low mean temperature, with a low mean daily range; a very high mean rainfall, with a large number of days with rain; a considerable excess of moderate winds from an easterly quarter.

December was characterised by an extremely high mean barometric pressure; an extremely high mean temperature, with a very low mean daily range; a low mean rainfall, with the average number of days with rain; an excess of winds of average force from S. and S.W.

FORTY-FIRST ANNUAL REPORT

ON THE

VACCINATION OF CHILDREN

BORN IN SCOTLAND IN 1904.

The number of living children whose births were registered in Scotland during the year ending 31st December, 1904, was 132,663. Of these, 111,575 have been reported to the registrars as having been successfully vaccinated, 2842 as having had their vaccination postponed, 1360 as insusceptible, 12,951 as having died before vaccination, while 3935 are unaccounted for.

TABLE XIX.—VACCINATIONS in SCOTLAND, 1894–1904, and Proportion to the Births each Year.

Years.		Successfully Vaccinated.	Vaccination Postponed.	Insusceptible of Vaccination			Died before Vaccination.	Removed from District before Vaccination, or otherwise unaccounted for.	TOTAL BIRTHS.
				From Constitutional Insusceptibility.	From having had Smallpox.	From previous Vaccination.

The number reported as vaccinated, 111,575, amounts to 84·1 per cent. of the total births, 93·2 per cent. of children living at the time when they should have been vaccinated, and 96·4 per cent. of children who were alive at the time they should have been vaccinated and who are accounted for. The percentage of the total births vaccinated is 0·9 less than that for the previous year, and 0·4 less than the mean of these percentages for the last ten years. The percentage of children alive at the time when they should have been vaccinated and who were vaccinated is 0·8 less than in the previous year, and 0·6 less than the mean of these percentages for the last ten years.

The number reported as dead before vaccination, 12,951, amounts to 9·8 per cent. of the total births, a proportion which is 0·3 more than that of the previous year, but 0·1 less than the mean of these proportions of the last ten years.

The number of children whose vaccinations were postponed for reasons of ill-health was 2842; these constitute 2·1 per cent. of the total children, and 2·4 per cent. of the children surviving at the time for vaccination. These children number 285 more than in the previous year, and 75 more than the mean of the numbers of such during the last ten years. The proportion of the total children to be in this class is 0·2 more than in the previous year, but is the same as the mean of the proportions of the last ten years. The proportion of these children to the number of surviving children is 0·3 more than in the previous year, but the same as the mean for the last ten years.

The number reported to be insusceptible was 1360, a number which

TABLE XX.—VACCINATIONS in SCOTLAND, 1894–1904, deducting from the Births those who died before they could be Vaccinated, and giving the Proportion of the Vaccinated to the surviving Births of each year.

is 428 more than in the previous year, and 437 more than the average number during the last ten years. Of these 1360 cases, 550 were reported to be due to constitutional insusceptibility, 2 to having had small-pox, and 808 to having been previously vaccinated. The number insusceptible from having had small-pox is 8 fewer than in the previous year, and the number insusceptible from previous vaccination is 261 more than in that year.

The number of cases reported as constitutionally insusceptible is 550, which is 175, or 47 per cent., more than the corresponding number last year, and amounts to 0·459 per cent. of the total number of surviving children; the corresponding rate for the previous year being 0·310. As pointed out in last year's report, the number of these insusceptibles varies widely in the different registration districts. The insusceptibles in the whole country amount to 1 in 243. Comparing the eight principal towns, it is found that there is 1 insusceptible in Aberdeen in each 1628 children, in Perth in 270, in Greenock in 262, in Leith in 236, in Glasgow in 201, in Edinburgh in 150, in Paisley in 144, and in Dundee in 90. In the following registration districts some of the highest rates of all are found:—Dunrossness, 1 in 11; Strathy, 1 in 16; Southern Gairloch, 1 in 16; North Harris, 1 in 40; Gourock, 1 in 54; Kilbarchan, 1 in 22; in Dumfries, 1 in 58; and in Kirkmaiden, 1 in 14. As a contrast to these figures, it may be stated that there was not a single insusceptible in the counties of Caith-

TABLE XXI.—Deaths from SMALLPOX in SCOTLAND, 1855–1905.

ness, Nairn, and Roxburgh, and that there was only 1 insusceptible in each of the counties of Bute, Berwick, and Peebles.

The number of children reported to have removed from their registration districts or otherwise unaccounted for was 3935, which is 129 more than in the previous year, and 403 more than the average number during the last ten years. These children amount to 3 per cent. of the total children born, and to 3·3 per cent. of the surviving children.

Deaths from small-pox during the year 1903, the last year for which complete information is now available, was 41; of them, 20 had been vaccinated, 12 had not been vaccinated, while in 9 cases vaccination was doubtful. Inferring from the average number of children vaccinated that about 94 per cent. of the population is vaccinated, these figures may be taken as indicating that the death-rate among the unvaccinated is nearly fourteen times as great as it is among the vaccinated.

I have the honour to be,

SIR,

Your most obedient Servant,

JAMES CRAUFURD DUNLOP.

Statistical Department,
15*th February*, 1906.

ABSTRACTS.

Bronchitis	752	31	457	922	2162
Emphysema, Asthma	–	1	23	27	51
Pleurisy	7	5	67	28	107
Fibroid Disease of Lung	–	2	10	9	21
Other Dis. of Respiratory System	15	1	13	15	44
DISEASES OF DIGESTIVE SYSTEM.					
Tonsillitis, Quinsy	2	5	3	–	10
Dis. of Mouth, Pharynx, Œsophagus (not Specific)	15	2	7	7	31
Gastric Ulcer	2	16	93	23	128
Gastric Catarrh	137	9	40	53	239
Other Dis. of Stomach (not Malig.)	18	1	29	30	78
Enteritis (not Infective)	234	6	47	36	323
Gastro-enteritis	264	16	18	14	366
Appendicitis, Perityphlitis	6	86	81	11	184
Hernia	7	1	38	35	81
Intestinal Obstruction	64	25	56	51	196
Other Diseases of Intestines	9	1	30	10	50
Peritonitis (not Puerperal)	24	40	78	33	175
Cirrhosis of Liver	1	3	66	27	97
Other Dis. of Liver and Gall Bladder	18	6	68	76	168
Other Diseases of Digestive System	1	1	6	5	13
DISEASES OF LYMPHATIC AND DUCTLESS GLANDS.					
Diseases of Spleen	1	3	2	–	6
Other Dis. of Lymphatic System	5	1	8	5	19
Diseases of Thyroid Body	–	–	11	–	11
Diseases of Supra-renal Capsules	–	–	6	2	8

CAUSES OF DEATH.	AGES. 0–5	5–20	20–60	60, etc.	Total.
B.—LOCAL DISEASES—*continued.*					
DISEASES OF URINARY SYSTEM.					
Acute Nephritis, Uræmia	20	36	177	76	309
Chronic Bright's Dis., Albuminuria	3	13	263	170	449
Calculus (not Biliary)	1	–	8	7	16
Dis. of Bladder and of Prostate	–	–	27	94	121
Other Diseases of Urinary System	4	3	41	29	77
DISEASES OF GENERATIVE SYSTEM.					
Ovarian Tumour (not Malignant)	–	–	24	8	32
Other Diseases of Ovary	–	–	8	–	8
Uterine Tumour (not Malignant)	–	–	18	3	21
Other Dis. of Uterus and Vagina	–	–	11	–	11
Disorders of Menstruation	–	–	–	–	–
Other Diseases of Generative and Mammary Organs	1	2	20	3	26
DISEASES OF PREGNANCY AND CHILDBIRTH.					
Abortion, Miscarriage	–	–	18	–	18
Puerperal Mania	–	1	–	–	1
Puerperal Convulsions	–	5	29	–	34
Placenta Prævia, Flooding	–	–	30	–	30
Other Accidents of Pregnancy and Childbirth	–	1	78	–	79
DISEASES OF LOCOMOTOR SYSTEM.					
Caries, Necrosis	17	37	17	11	82
Arthritis, Periostitis	6	8	7	4	25
Other Dis. of Locomotor System	2	1	2	–	5
DISEASES OF THE SKIN.					
Ulcer, Bed-sore	1	–	1	10	12
Eczema	10	–	1	1	12
Pemphigus	10	–	2	–	12
Other Diseases of the Skin	3	–	3	1	7
C.—OTHER SPECIFIED DISEASES.	–	–	–	–	–

N.B.—Districts containing Parliamentary and Royal Burghs are printed in capitals, thus—EDINBURGH. Districts containing Police Burghs or Towns of 2000 Inhabitants and upwards are printed in small capitals, thus—CARLUKE. An asterisk "*" is prefixed to those Districts which have different names from the Parishes in which they are situated, or which comprise more, or parts of more than one Parish. The component parts of these Districts will be found on page 57. A dagger "†" is prefixed to those Districts which consist of only a part of the Civil Parish of the same name.

‡ Vaccination Return not received.

No. of District.	REGISTRATION DISTRICTS.	POPULATION. Census 1891.	POPULATION. Census 1901.	BIRTHS, DEATHS, AND MARRIAGES. 1905. Births.	Deaths.	Marriages.	VACCINATIONS, 1904. Successfully Vaccinated.	Vaccination Postponed.	Insusceptible of Vaccine Disease. Constitutional Insusceptibility.	On the ground of Small-pox.	In respect of the Children having already had Successful Vaccination.	On the ground of previous	Died before Vaccination.	Removed from District before Vaccination, or otherwise unaccounted for.	Total Births for 1904.

APPENDIX.

VACCINATIONS, 1904.

EXTRACTS FROM THE REGISTRARS' NOTES RELATIVE TO THE WORKING OF THE VACCINATION ACT.

I.—NORTHERN DIVISION.

1. Shetland.

7 (1). Nesting.—Case "otherwise unaccounted for" is believed to be successfully vaccinated, but certificate has not yet been received.

II. NORTH-WESTERN DIVISION.

5. Ross and Cromarty.

Mainland.

66 (2). South Gairloch.—Of the three cases entered in column 7, two had postponement certificates which expired a few days before the close of the year; the third has left the district.

71 (1). Kincardine.—The case unaccounted for refers to the child of an itinerant tinker who may yet be traced.

6. Inverness.

Mainland.

95. Daviot and Dunlichty.—In the case of parents permanently resident in the parish no difficulty arises in regard to vaccination; the trouble is in tracing farm servants who migrate so frequently.

106. Petty.—Vaccination well attended to.

Insular.

111 (1). North Harris.—Vaccination carried out very satisfactorily in this district.

113. North Uist.—The presence of measles in the parish for seven months of the year 1905 hindered the work of vaccination.

118 (1). Benbecula.—Five children without certificates. Measles has been prevalent.

III. NORTH-EASTERN DIVISION.

9. Banff.

148. Botriphnie.—Not for many years has the work of vaccination been carried out so regularly.

10. Aberdeen.

168 (1). St. Nicholas.—The large number entered as "insusceptible from previous successful vaccination" are cases which were reported to the Inspector of Poor, and were found to have been vaccinated by various practitioners in Aberdeen who had failed to furnish the necessary certificates. The cases were submitted to the medical officers of the Parish Council, and certified as insusceptible on the ground of previous successful vaccination.

168 (2). St. Machar.—Of the fifty-four cases entered in column 7, twenty-eight were postponed to dates prior to 31st December 1905, twelve are reported as having left the district and cannot be found, eleven are under consideration of the Parish Council, and in three cases the parents were prosecuted for refusal to have children vaccinated.

183 (2). Crathie.—Vaccination well attended to in this district.

IV. EAST-MIDLAND DIVISION.

12. Forfar.

282 (4). St. Andrew.—A number of the children returned as "unaccounted for" are believed to have been vaccinated, but the relative certificates have not been received.

321 (5). Tannadice.—The two cases entered as having died before vaccination refer to children prematurely born who survived birth but a few hours.

13. Perth.

330. Auchtergaven.—Vaccination is often delayed from carelessness, but is never wilfully evaded.

340. Collace.—The parents of the child referred to in column 7 were vagrants whose whereabouts cannot be traced.

387. Perth.—About half of those returned as "removed from district" were children of men employed at the widening of Moncrieffe Tunnel, or of travelling showmen.

14. Fife.

406. Auchtermuchty.—The case returned as "otherwise unaccounted for" refers to a child without a certificate, but who, it is understood, will be vaccinated soon.

457*b*. THORNTON.—The number of children who died before vaccination is unusually large.

V. WEST-MIDLAND DIVISION.

18. DUMBARTON.

501. OLD KILPATRICK.—A large number of the cases entered as "unaccounted for" have been reported to the Parish Council.

VI. SOUTH-WESTERN DIVISION.

22. AYR.

616. STEWARTON.—A few of those entered as "unaccounted for" are being dealt with by the Parish Council.

VII. SOUTH-EASTERN DIVISION.

24. LINLITHGOW.

673 (1). WHITBURN.—In three cases which have been returned under column 7, the Parish Council have decided to take no action against the parents in view of the fact that they have been convicted on a previous occasion.

27. BERWICK.

743. GREENLAW.—Vaccination Act works well, chiefly because of the attention given to the subject by the medical officer.

VIII. SOUTHERN DIVISION.

30. ROXBURGH.

807. SPROUSTON.—One defaulter prosecuted and fined.

31. DUMFRIES.

817. CUMMERTREES.—One case still unvaccinated has been reported to the Parish Council.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING TABLES BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
	2. Orkney.	
13	Birsay	Part of Harray and Birsay.
14	Deerness	Part of St Andrews and Deerness.
18	Harray	Part of Harray and Birsay.
22	North Ronaldshay	Part of Cross and Burness.
25	St Andrews	Part of St Andrews and Deerness.
26	Sanday	Lady, and part of Cross and Burness.
	3. Caithness.	
37*b*	Keiss	Parts of Canisbay and Wick.
	5. Ross and Cromarty.	
58	Applecross	(1) Part of Applecross; (2) Remainder of Applecross and part of Gairloch.
59*b*	Carnoch	Parts of Contin and Urray.
86*b*	Carloway	Parts of Barvas and Uig.
87	Lochs	Lochs, and part of Uig.
	6. Inverness.	
92*b*	Cannich	Parts of Kilmorack and Kiltarlity.
112	Kilmuir	(1) Part of Kilmuir; (2) Remainder of Kilmuir, and part of Snizort.
	8. Elgin.	
135	Elgin	Elgin, and parts of New Spynie and St Andrews-Lhanbryde.
	9. Banff.	
152	Enzie	Parts of Bellie and Rathven.
155*b*	Glenrinnes	Parts of Aberlour and Mortlach.
167	Seafield	Parts of Cullen and Rathven.
	10. Aberdeen.	
171*b*	Ardallie	Parts of Cruden, Ellon, Longside, and Old Deer.
210*b*	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone, and part of Glenmuick.
222*b*	Millbrex	Parts of Fyvie and Monquhitter.
227*b*	New Pitsligo	Parts of Aberdour, New Deer, Strichen, and Tyrie.
231	Peterculter	(1) Parts of Aberdeen and Peterculter; (2) Remainder of Peterculter.
237*b*	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
249*b*	Ythan Wells	Parts of Auchterless and Forgue.
	11. Kincardine.	
266	Nigg	Nigg, and part of Aberdeen.
	12. Forfar.	
282	Dundee	Dundee Combination, and part of Mains and Strathmartine.
294*b*	Kilry	Parts of Glenisla and Lintrathen.
	13. Perth.	
324	Aberfeldy	Parts of Dull, Kenmore, and Logierait.
330	Auchtergaven	Parts of Auchtergaven and Logiealmond.
331	Balquhidder	Balquhidder, and part of Comrie.
344	Dowally	Part of Dunkeld and Dowally.
349	Dunkeld	Part of Dunkeld and Dowally.
355*b*	Foss	Parts of Blair-Athol and Dull.
361	Killin	Parts of Kenmore and Killin.
375	Logiealmond	Parts of Logiealmond, Little Dunkeld, and Methven.
379	Meigle	Meigle, and part of Coupar-Angus.
386*b*	Persie	Parts of Alyth, Blairgowrie, and Kirkmichael.
387	Perth	Perth, and part of Kinnoull.
393*b*	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394*b*	Strathfillan	Part of Killin.
394*c*	Tenandry	Parts of Blair-Athol and Moulin.
	14. Fife.	
402	Anstruther-Easter	Anstruther-Easter, and part of Kilrenny.
417	Crail	Part of Crail and May Island.
428	Dunbog	Dunbog, and part of Flisk.
425	Dunino	Dunino, and part of Crail.
442	Kirkcaldy and Abbotshall	Part of Kirkcaldy and Dysart.
457*b*	Thornton	Part of Kirkcaldy and Dysart and of Markinch.
	17. Stirling.	
488	St Ninians	Parts of St Ninians and Stirling.
490	Stirling	Parts of St Ninians and Stirling.

CONSTITUTION OF THE DISTRICTS—*continued.*

No.	Districts.	Component Parts (Parishes).
	18. Dumbarton.	
496	Dumbarton	Dumbarton, and parts of Cardross and Old Kilpatrick.
	19. Argyll.	
504	Ardchattan	Part of Ardchattan and Muckairn.
505	Ardnamurchan	(1) Parts of Ardnamurchan and of Arisaig and Moidart.
506	Ballachulish, etc. . . .	Parts of Kilmallie and Ardgour.
509	Cumlodden and Minard .	Parts of Glassary and Inveraray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura.
517	Kilchrenan, etc. . . .	(1) Parts of Kilchrenan and Dalavich, and Glenorchy and Inishail; (2) Remainder of Kilchrenan and Dalavich.
520	Kilmallie	Parts of Kilmallie and Ardgour.
525	Lismore	Lismore and Appin, and part of Ardgour.
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardchattan and Muckairn, and Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell, Saddell and Skipness, and South Knapdale.
536	Bowmore (or Kilarrow) .	Part of Kilarrow and Kilmeny.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelvie	Part of Pennygown and Torosay.
547	Portnahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and Pennygown and Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
550	Torosay	Part of Pennygown and Torosay.
	20. Bute.	
556	Lochranza	Parts of Kilbride and Kilmory.
	21. Renfrew.	
559*b*	Bridge-of-Weir	Parts of Houston and Killellan, and of Kilbarchan.

Crawfordjohn, 636
Creich (Fife), 418

* The actual number of Districts is 1073—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 7 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place *compound* names in the order in which they are pronounced.

Creich (Sutherland), . 46
Crichton, . 681
